

Gentlemen:

The great majority of radio station operators in the U.S. are very responsible in the area of indecency.

I am asking you to NOT PASS rules requiring broadcasters to record and retain their programming.

Such requirements would place unreasonable financial and record keeping burdens on small market radio stations.

It is unfair to punish all because of a few "bad apples."

If such rules are mandated, please
exempt small market radio stations.
Thank you.

Sincerely,

Howard E. Espravnik
